Please find the attached documents to fulfill the basic requirements for the Law Enforcement Camera Grant Act (50 ILCS 707/15). The New Baden Illinois Police Department does not use body cameras and have not had any technical issues with the equipment.

Supervisors at the New Baden Police Dept. complete periodic reviews of in-car video as needed, for the following reasons:

1. To investigate complaints and/or compliments from citizens.
2. To review officer's response to critical incidents.
3. As a training aid for in-service departmental training.
4. As a case review when in-car video is submitted as evidence to aid prosecuting State or Federal cases.
5. As a function check to verify the camera system is operating correctly.
6. On a case-by-case basis as determined by a supervisor.

I have attached documents with reported incidents and citations completed by the New Baden Police Dept. from January 1st, 2020 to Dec 31st, 2020. The New Baden Police Dept. purchased the in-car cameras through the Camera Grant Program and put into service in June, 2018. Virtually every citation issued during that time frame involved the use of at least one in-car camera purchased through the Camera Grant Program. Frequently more than one squad car that is equipped with an in-car camera is on scene of an arrest and/or citation and/or warning so some events are recorded on multiple cameras. The cameras can also be used for a myriad of cases, including suspect/witness/victim statements on domestic violence cases, DUI cases, and other criminal cases where an arrest was made and/or a citation was issued. Associating each arrest made and each citation issued to a specific in-car camera, along with violator information, case number, and case disposition, is not possible due to manpower.

The New Baden Police Dept. has not used any in-car camera video for criminal, civil, or internal investigations.

Please contact me for any further information.
