The Woodford County Sheriff's Office received grant funding from the State of Illinois in FY-19-20 for reimbursement of the purchase of seven in-car cameras. All of these cameras were installed in patrol vehicles.

Supervisor review of in car camera media is strictly regulated by our union agreement with the Fraternal Order of Police contract. Supervisors may review archived media for two reasons. One, citizen complaint and secondly, routine preparation for court proceedings.

Please find attached a list of cases in which in-car video recordings were used.
