## MEMORANDUM

TO: $\quad$ The Honorable JB Pritzker, Governor The Honorable Jim Durkin, House Minority Leader The Honorable Don Harmon, Senate President The Honorable Dan McConchie, Senate Minority Leader The Honorable Emanuel "Chris" Welch, Speaker of the House

FROM:

DATE: July 7, 2022
SUBJECT: Illinois State Board of Education English Learner Statistical Report

The ISBE English Learner Statistical Report for SY 20-21 pursuant to 105 ILCS 5/2-3.39.
This report is transmitted on behalf of the State Superintendent of Education. For additional copies of this report or for more specific information, please contact Amanda Elliott, Executive Director, Legislative Affairs at (217) 782-6510 or aelliott@isbe.net.

## Background

## English Learners

The Illinois State Board of Education (ISBE) is committed to the cognitive, linguistic, and socio-emotional development of all children in Illinois. ISBE's Multilingual Department is focused on ensuring that students with diverse linguistic repertoires and those who may benefit from additional support have equitable access to academic instruction in English. These students also must be provided with access to all educational opportunities to which they are entitled. A home language survey is filled out by families who enroll their children in public schools in Illinois. Potential English Learners (ELs) are screened for English language proficiency (ELP) using an approved English language screening instrument. Students who do not meet the criteria of English proficiency on the ELP screener are identified as English Learners. Students maintain that status until they achieve ELP on the WIDA ACCESS for ELLs, which is the annual ELP assessment in Illinois. Once students achieve ELP on ACCESS, they are no longer considered an English Learner and are then reclassified as a Former English Learner. At that point, Former ELs may enter the general education classroom without the requirement of receiving additional EL services. However, parents and guardians of Former ELs may still elect for their children to continue to receive EL services. Students who do not meet ELP within six years of programming are considered Long-Term ELs.

## Annual Examinations of ELs

Section 14C-3 of the Illinois School Code (105 ILCS 5/14C-3) requires that all K-12 students identified as ELs be tested annually for English proficiency in four language domains: aural comprehension (listening), speaking, reading, and writing. ISBE has prescribed the ACCESS for ELLs as the annual ELP assessment since school year 2005-06. The current ELP criteria, set by ISBE in July of 2017, is an overall composite score of 4.8 on the ACCESS for ELLs.

## Program Options

Section 105 ILSC 5/14C-3 requires that one of two types of programs be provided for all Pre-K-12 ELs to help them become proficient in English. The two options are a Transitional Bilingual Education (TBE) program and a Transitional Program of Instruction (TPI). Per Part 228.27 of the Illinois Administrative Code, school districts that discontinue TBE and/or TPI services after three years of supports for ELs are required to file a plan for EL services to continue to support ELs beyond the third year of instruction and until the student has met the state ELP criteria. Instruction within these programs varies depending on if the models are self-contained or collaborative and if they are in departmentalized or non-departmentalized settings. For a more detailed description of these program types and the instructional designs, please refer to the section on EL Student Count by Instructional Design in this report.

## Transitional Bilingual Education

Legislation passed in 1973 requires Illinois school districts to offer a TBE program when 20 or more ELs of the same language classification are enrolled in the same attendance center. TBE programs must provide instruction in both the home language of students and in English in the core subject areas(language arts, mathematics, science, and social studies), as well as instruction in English as a second language(ESL). TBE services must also include instruction on the history of the student's or the parent's native land and the United States. TBE teachers are required to be certified by the State of Illinois and possess the appropriate Bilingual and/or ESL endorsement/approval. Bilingual teachers must demonstrate proficiency in the language(s) spoken by students and in English.

## Transitional Program of Instruction

An attendance center that has an enrollment of 19 or fewer ELs from any single non-English language may elect to offer a TPI program in lieu of a TBE program. TPI programs must include instruction or other assistance in a student's home language to the extent necessary as determined by the student's level of English proficiency. TPI services may include, but are not limited to, instruction in ESL, language arts in the student's home language, and history of the student's native land and the United States. TPI teachers must hold the proper teacher certifications and endorsements/approvals for their teaching assignments.

## Dual Language Programs

Dual language programs are an instructional option that falls under TBE programming. An attendance center may choose to offer dual language programs to ELs of the same language background only or to ELs of the same language background with a group of non-ELs. Dual language programs operate as a self-contained cohort, typically with grades $\mathrm{K}-5$, with an overall goal of bilingualism and biliteracy and an understanding of grade level content in two languages. Since dual language programs include bilingual instruction, teachers that have a dual language cohort of students are required to be certified by the State of Illinois and possess the appropriate Bilingual and/or ESL endorsement/approval. Bilingual teachers must demonstrate proficiency in the language(s) spoken by the students and in English.

## Sources of Data

Data for this report were extracted by the Data Strategies and Analytics Department at the Illinois State Board of Education from the SY 2020-21 Student Information System Enrollment, EL Record Data, and I-Star Student Approval. The data values were calculated based on the 2021 Report Card Snapshot.

## Bilingual Education Programs in Illinois

## English Learner Enrollment per Type of Program

Of the 852 public school districts in Illinois, 653 of them, or roughly $77 \%$, implemented programs to serve ELs in SY 2020-21. Each of these districts may implement a variety of EL programs depending on students' individual needs. There were 251,846, total EL students enrolled in Illinois in SY 2020-21. A total of 614 school districts implemented a TBE program of instruction for 182,174 ELs. A TPI was implemented in 546 school districts, which served 53,170 ELs. Other/alternative EL programs (primarily dual language programs) were implemented in 98 districts for 552 students. Finally, parent refusals were documented for 15,950 students in 339 districts.

For more detailed data, please See Table 1 in the Appendix.

## Endorsements of Teachers Serving English Learners

Educators in Illinois must hold a Professional Educator License(PEL) endorsed in elementary, middle, or high school to be placed in a corresponding public-school classroom. Additionally, educators serving ELs must hold a valid Bilingual endorsement (with the corresponding language) or an English as a Second Language (ESL) endorsement. Educators providing services to dually identified Special Education-ELs(SPED-ELs) must hold a Special Education endorsement or co-teach with a SPED-endorsed teacher to provide full supports to students. Educators in the middle grades and high school who teach academic content with bilingual and ESL supports must also hold an endorsement in the content area of instruction or co-teach with an educator who holds the appropriate content area endorsement. Educators with an Educator License with Stipulations-Transitional Bilingual Educator (ELS-TBE) or a licensed Visitor International Teacher (ELS-VIT) are also approved to work with ELs. A single teacher may hold several endorsements to service ELs.

Illinois has 1,231 teachers who hold a Bilingual endorsement in any language; the total number of educators who hold a Bilingual endorsement in Spanish, which includes those with a PEL, TBE, or VIT endorsement, is 8,373 . Additionally, 17,797 teachers hold an ESL endorsement, 746 educators hold an ELS-TBE, and 75 educators hold an ELS-VIT. In total, Illinois has 26,019 endorsed educators to serve ELs, with 23,923 of them serving in Title IIIfunded school districts. This data shows that while $97 \%$ of educators have their PEL, there is a state-wide need to get the remaining 3\% of teachers their PEL to ensure that ELs in Illinois can receive the services that they need.

Please note that this data represents only credentialed teachers in Illinois and is not an accurate reflection of the number of teachers who are working with ELs.

For more detailed data, please See Table 2 in the Appendix.

## English Learners in Illinois

## EL Student Enrollment by County

Twenty-eight percent of the 251,846 ELs in Illinois public schools were enrolled in Chicago Public Schools(City of Chicago School District 299) and 25 percent more in the surrounding school districts in Cook County. Counties immediately outside of Cook (DuPage, Kane, Lake, and Will) served 33 percent of ELs in Illinois. The remaining 14 percent of ELs attending public schools in Illinois reside in other counties across the state. Forty-six counties in Illinois have 20 or fewer ELs.

Charts below do not include data of ELs that were in the Department of Corrections. Please See Table 3 and 4 in the Appendix for this data and all other detailed county data.

> EL Distribution Across Illinois: Cook County \& Surrounding Suburbs Only

Percent Change of ELs from SY20-SY21

## EL Student Count by Language

There were 179 distinct languages spoken by ELs in Illinois. Spanish is the most common language among ELs at 72 percent. It is followed by Arabic at 4 percent, Polish at 2.5 percent, Urdu at 2 percent, and Russian and Gujarati at 1 percent each. Ninety-two languages are spoken by 25 or fewer ELs in Illinois.

For more detailed data, please See Tables 5-7 in the Appendix.

Change in Number of Spanish Speakers from SY 20 to SY 21

## EL Student Count by Grade and Race/Ethnicity

English Learners are primarily found in grades K-5, with the majority of ELs in third grade at 25,506. The fewest number of ELs are in 12th grade, at 8,775. By ethnicity, the majority of ELs, 75 percent, are Hispanic or Latino. The next largest racial group is White at 11 percent, followed by Asian at 10 percent, Black or African American at 3 percent, and Two or More Races at 1 percent.

In the below charts, Hispanic ELs - the largest racial group of ELs in Illinois - are solely identified in the bar graph to not skew the grade-band data in the subsequent pie charts.

For more detailed data, please See Table 8 in the Appendix.

Race and Ethnicty of ELs: Pre-K

Race and Ethnicity of ELs: 9th-12th Grade

## EL Students with Individualized Education Programs

There are 55,526 students who are English Learners with Individualized Education Programs(IEPs), which is about 22 percent of all ELs. The majority of unique ELs with IEPs are in pre-K at 4,735. The number of unique ELs with IEPs declines significantly in kindergarten and continues with that trend throughout later grades. This decrease may in part be due to the number of ELs that exit services. However, the highest percentage of ELs with IEPs within their grade is found among 12thgraders at 37 percent.

For more detailed data, please See Table 9 in the Appendix.

## EL Student Count by Instructional Design

English Learners in Illinois are placed into one of six instructional designs. The first, Dual Language programs consist of Two-Way and One-Way instruction with the goal of acquiring bilingualism and biliteracy. Dual Language programs serve a self-contained cohort of students and generally occur in grades $\mathrm{K}-5$, with students starting at the earliest grades possible. Both Two-Way and One-Way programs include ELs with the same language background (who may have varying levels of English language proficiency); the Two-Way program is the only one that includes non-ELs. If Spanish is the native language of the group of ELs that are enrolled in this program, then it is required that the core content include Spanish Language Arts standards. In both programs, core academic content is taught in English and the language other than English. Language allocation of instruction varies per program, from $90 \%-10 \% / 80 \%-20 \%$ to $50 \%-50 \%$ of instruction in the language other than English to English. ELs receive both Bilingual and ESL services and remain enrolled for the program's duration, even after meeting the state-mandated English language proficiency criteria.

Dual Language: Two-Way

Dual Language Spanish: One-Way and Two-Way

Dual Language: One-Way

Transitional Bilingual Programs(TBE) are required in attendance centers that have 20 or more ELs of the same language background, but LEAs are welcome to implement this type of programming even if they do not meet this legal threshold. The goal of TBE programs is proficiency in grade level content and English, but native language growth is also something that is emphasized. If Spanish is the native language of the group of ELs that are enrolled in this program, then it is required that the core content include Spanish Language Arts standards. TBE programs have two instructional models--self-contained and collaboration-and their implementation varies depending on if the instructional delivery is in a departmentalized or nondepartmentalized setting. Self-contained TBE programs operate in self-contained classrooms, or dedicated bilingual courses in departmentalized settings, for ELs of the same language background. These programs ensure that students receive core academic content in English and the language other than English as well as ESL instruction. The initial language allocation varies, however as students' English proficiency increases there will be a gradual shift to instruction mostly in English.

TBE:Self-Contained

Collaborative TBE programs vary more greatly depending on the instructional setting. For non-departmentalized collaborative TBE instruction, ELs are placed in classes with non-ELs or ELs from various language backgrounds. These students will either receive pull-out/co-teaching instruction in the home language for the core subjects, or, if the mainstream teacher has a bilingual endorsement, the teacher will differentiate language instruction and provide small group instruction in the native language for part of the day to TBE students. Intentional and meaningful collaboration between teachers who serve these ELs is required for success with this program type. In departmentalized settings, bilingual core courses are not offered for all core content areas, however the home language can be provided by a bilingual endorsed content teacher in small groups or through co-teaching. If this method of home language instruction is not possible for certain content areas, a separate instructional period(sometimes referred to as a "resource period") offering home language instruction is possible. Regardless of instructional setting, collaborative TBE programs still seek to provide ESL instruction as well as maintaining a gradual shift to instruction in English as students' English proficiency increases.

Transitional Program in English(TPI) are implemented in attendance centers that have 19 or fewer ELs of the same or different language backgrounds. The goal of TPI programming is proficiency in grade level content and English. Like TBE programs, TPI programs also have two instructional models-self-contained and collaboration-and their implementation varies depending on if the instructional delivery is in a departmentalized or non-departmentalized setting. ELs placed in a self-contained TPI program in a non-departmentalized setting receive instruction in a self-contained classroom with ELs from various language backgrounds. Core academic content is taught in English, but by using differentiated language instruction that has been adapted for ELs or with sheltered English strategies, for example. In departmentalized settings for this program type, there are specific EL or sheltered core academic courses offered across the core content areas; home language instruction or courses may be available, but not necessarily across all content areas. In both methods, ESL instruction is provided, and home language support is provided to the extent that is practicable.

ELs enrolled in a collaborative TPI program in a non-departmentalized setting are placed in classes with ELs from various language backgrounds as well as non-ELs and receive either pull-out/co-teaching instruction in core academic subjects or the mainstream classroom teacher will differentiate language instruction and use specific strategies for ELs. In a departmentalized setting, specific core academic courses for ELs are not offered but ESL instructional strategies are used by the classroom teacher to differentiate, or additional services are offered through co-teaching or as a separate instructional period. In both settings, ESL instruction is provided, and home language support is provided to the extent that is practicable.

Transitional bilingual programs(TBE classrooms) make up about 25 percent of all instructional designs used. Transitional programs in English (ESL classrooms) make up about 23 percent and dual language programs make up nearly 14 percent. The most common program is a Transitional Program in English in a collaborative setting; 44,550 ELs were enrolled in this type of program. The least common program is Dual Language(Two Way), comprising just 6 percent of ELs.

## EL Student Performance on Access

The ACCESS for ELLs, published by WIDA, is the English language proficiency assessment used in Illinois. English Learners are required to take the ACCESS on an annual basis. The ACCESS is composed of four domains: reading, writing, listening, and speaking. The scores of each domain are combined to form an overall composite proficiency level(OCPL)for each student. The OCPL ranges from 1.0 to 6.0 with 0.1 increments. Students who attain an OCPL of 4.8 or above are reclassified as former ELs and are no longer required to take the ACCESS in future years; a little over 10 percent of ELs in SY 2020-21 met proficiency on the ACCESS. The majority of ELs fell into the proficiency level band of $3.0-3.9$ with 58,168 students, or 25 percent. The Null category includes ELs that were not tested or did not have a valid ACCESS score; alternative ACCESS scores are not included in these counts.

For more detailed information, please See Table 11 in the Appendix.

## EL Student Performance on State ELA and Math Assessments

English Learners are required to participate in the state academic assessments. The state English language arts(ELA) and math assessments are offered in grades 3-8(Illinois Assessment of Readiness [IAR]) and 11(SAT). Close to 3 percent of ELs met or exceeded standards on the ELA assessment and nearly 3 percent of ELs met or exceeded standards on the math assessment, compared to non-ELs at 26 and 21 percent, respectively. Please note that the data included in this section represents the total number of students who were tested during this school year, as not all students were tested for various reasons, such as absence or moving during the testing window.

For more detailed data, please See Tables 12 and 13 in the Appendix.

Number of EL Students Meeting or Exceeding ELA Standards
