Acknowledgements

The Mountain-Whisper-Light, Inc. and SC-B Consulting, Inc. gratefully acknowledge the contributions of Jessica Keldermans (Bureau Chief) and Sean Berberet, Bureau of Data Collection, Illinois Department of Transportation, and their associates at IDOT. Ms. Keldermans and Mr. Berberet offered important support frequently throughout the study period. Many thanks to the office of the Illinois Secretary of State for providing summary statistics on drivers' licenses (without any personally identifying information). We are also grateful to the law enforcement agencies and their staff for their diligence and patience in collecting and processing the data used in this study.

Pedestrian Stops: Agency Tables

The following section comprises tables summarizing Illinois 2022 pedestrian stops data.

A summary of Illinois statewide pedestrian stops appears first followed by 1) summaries for each agency in alphabetical order, 2) a table listing agencies that reported zero stops, and 3) a table listing non-compliant agencies. This year, no agencies reported incomplete data for 2022 pedestrian stops.

Each law enforcement agency that supplied 2022 stops records was provided an advance copy of their tables to review and provide feedback prior to the study team's completion of this final report. The agencies were invited to comment on the tables and five agencies did provide comments on their tables of pedestrian stops: Downers Grove Police, Gurnee Police, Illinois State Police, Illinois State University Police and Rockton Police.

Comments from each of the five noted agencies appear in this document following the statistical tables of each. The comments are reported as received, without any editing. The study team appreciated receiving the feedback (on both pedestrian and traffic stops studies) and studied the comments in detail.

Readers are urged to read ***Part I*** of this report, the ***Executive Summary***, a separate document. ***Part I*** is a guide to the use of the tables and explains how all the numbers were derived. ***Part I*** also includes a technical appendix, which may be of interest to those who seek a deeper understanding of the methodology.

Comments Provided by the Law Enforcement Agency - GURNEE POLICE

This out of state vendor has elected to use our community's estimated driving age population as a benchmark for field interview analysis. This leads to an inaccurate comparison for demographics. The Village of Gurnee has a population of close to 31,000, yet welcomes over 24 million visitors a year to Six Flags Great America, Gurnee Mills Mall, Great Wolf Lodge Resorts as well as numerous other hotels, entertainment and retail locations.

Response Provided by the Study Team

We thank Gurnee Police for their careful review and thoughtful comments.

We are providing some additional detail on the benchmark calculations for added context. Part I Appendix C of this report describes the calculations in detail. Limitations are also discussed in Part I of the report.

The pedestrian benchmark was based on the resident population of Gurnee between the ages of 12 and 80 as documented by the 2020 U.S. Census. We acknowledge the limitations of this approach, including not accounting for pedestrians from outside the community.

Ultimately our goal is provide the most accurate data as possible, within the constraints of our available data, and we strive to refine and improve the traffic and pedestrian stop benchmarks each year.

Comments Provided by the Law Enforcement Agency - ILLINOIS STATE POLICE

The Illinois State Police (ISP) remains committed to making Illinois roadways safe for all drivers. Through traffic stops and consent searches, the ISP is taking illegal weapons and other illegal substances off roadways in Illinois, making travel safer.

The ISP continues to build on the progress made since the implementation of the Traffic Stop Statistical Study in 2004. ISP leadership evaluates the data captured each year, ensures all officers are trained on constitutional policing, and provides comprehensive supervision to ensure compliance.

The ISP will continue to focus training on equitable treatment of drivers and ensuring the rights of all persons are protected.

Comments Provided by the Law Enforcement Agency - ILLINOIS STATE UNIVERSITY POLICE

During our review of Pedestrian Stops, we found that IDOT data was not counting each stop individually. Some stops that have the same data points (i.e. on the same date, time, and the individuals are the same race) are only being counted once even if there were four entries, because the IDOT system counts them as duplicate entries. We have reported this error to IDOT. Until this is error is corrected, this data is not entirely accurate.
