

Illinois
Department of
**Natural
Resources**

JB Pritzker, Governor • Natalie Phelps Finnie, Director
One Natural Resources Way • Springfield, Illinois 62702-1271

www.dnr.illinois.gov

Dear Governor Pritzker & General Assembly Members:

The Department of Natural Resources is pleased to present the Open Space Lands Acquisition and Development (OSLAD) grant program's Annual Report for fiscal year 2023.

The OSLAD program is one of the Illinois Department of Natural Resources most popular grant programs. With thanks to you and the legislature OSLAD saw an influx of funds in FY23, from \$28 million to \$56 million for acquisition and development of recreation projects in Illinois. This program has become a vital resource for local agencies as they try to keep pace with the growing demands for additional open space land and new outdoor recreation opportunities while rehabilitating aging recreation facilities.

The OSLAD program has enabled local governments, individually and cooperatively, to commit to large-scale, long-term recreation, and open space and natural resource preservation initiatives oftentimes transcending jurisdictional boundaries. As such, the OSLAD program not only forges state-local partnerships but also helps foster local, inter-governmental partnerships.

Your support and expansion of the OSLAD program has improved the quality of life in many Illinois communities by providing public recreation, securing perpetual open space for future generations, and increasing the benefits on citizen's health through exercise. The Department of Natural Resources is committed to the continued administration of this program in a manner responsive to the changing outdoor recreational needs of local governments throughout the state.

Sincerely,

Natalie Finnie
Director

NF/gke

Equal opportunity to participate in programs of the Illinois Department of Natural Resources (IDNR) and those funded by the U.S. Fish and Wildlife Service and other agencies is available to all individuals regardless of race, sex, national origin, disability, age, religion or other non-merit factors. If you believe you have been discriminated against, contact the funding source's civil rights office and/or the Equal Employment Opportunity Office, IDNR, One Natural Resources Way, Springfield, ILL. 62702-1271; (217) 785-0067; TTY (217) 782-9175. The funding source for the LWCF program is the U.S. Department of the Interior, National Park Service. The address for the civil rights office is: Equal Opportunity Program Director, U.S. Department of the Interior, National Park Service, P.O. Box 37127, Washington, DC 20013-7127.

A BRIEF HISTORY OF THE ILLINOIS OPEN SPACE LANDS ACQUISITION & DEVELOPMENT PROGRAM

In response to dwindling federal dollars throughout the 1980's and early 90's for Illinois' growing outdoor recreation demands, the Illinois General Assembly established the "Open Space Lands Acquisition and Development" (OSLAD) program in FY'86 as part of the Build Illinois Bond fund initiative. The legislation authorized \$40 million over a five-year period beginning in FY'86. However, during that five-year period only \$22.6 million were appropriated and expended.

To help ensure more predictable and stable program funding, SB 1463 was passed and signed into law in 1990 as P.A. 86-466, dedicating a portion of the revenues derived from the state's Real Estate Transfer Tax specifically for the OSLAD program. Allocation of funds from this dedicated source was phased in over a five-year period beginning in FY'91.

With full funding achieved in FY'95, 35% of the revenue derived from the Real Estate Transfer Tax was allocated annually to the OSLAD program. This translated into an annual program appropriation level of between \$17-29 million but the program always depended on the vitality of the real estate market in Illinois.

PROGRAM MECHANICS

The State's OSLAD program is administered by the Illinois Department of Natural Resources (IDNR), acting under authority of 525 ILCS 35, Administrative Code Title 17: Chapter I, Subchapter g, Part 3025, and annual appropriation statutes. Through the OSLAD program, the IDNR provides grants to eligible local governments on a 50/50 cost-sharing basis (90/10 for "distressed" local governments) for approved park, open space, and conservation land acquisition and capital development projects. Examples of eligible projects include acquisition of land for new or expanded park areas, preservation of pristine natural areas, and the construction or renovation of outdoor recreation facilities such as picnic areas, playfields and courts, playgrounds, swimming pools and other water recreation facilities, campgrounds, trails, nature centers, and winter recreation facilities.

All local units of government having statutory authority to provide public park facilities, such as municipalities, counties, parks, forest preserves, and conservation districts, are eligible to apply. Grants are awarded on a competitive basis based upon on-line applications submitted to the IDNR by the published application deadline date.

Applications for grant assistance were accepted by IDNR between August 1, 2022, and September 30, 2022. Department staff objectively evaluated and prioritized each proposal according to a numeric scoring instrument. The project evaluation instrument is designed to make project selection equitable and responsive to statewide and local outdoor recreation needs and program objectives that are published in the local participation grant manual provided to all applicants. Priorities for OSLAD funding are outlined in the next section.

IDNR staff visit the proposed sites as part of the review, scoring, and evaluation process. After review and deliberations final recommendations are made to the Director of IDNR for project approval. Grant awards are typically announced within a year.

In FY23, the legislature increased the funds available for OSLAD to \$56 million and provided 100% funding for distressed communities. IDNR also made the decision to increase the funds available by increasing the grant awards from \$750,000 to \$1,125,000 for land acquisition and from \$400,000 to \$600,000 for development (construction) projects. Local governments are limited to one acquisition and one development project application per year.

After grant award approval, 50% of the grant award may be paid to the local sponsors after the grant agreement is fully executed. The remainder of the grant will be paid to the local sponsors as matching funds are expended. Final grant reimbursement (payment) is made upon satisfactory project completion. Normally one year is given to complete an acquisition project and two construction seasons for development projects.

To ensure continuing project accountability, the IDNR monitor all completed acquisition projects in perpetuity by either conducting on-site inspections at five-year intervals or by requesting written reports from local sponsors certifying continuing compliance with program regulations. Sites receiving only OSLAD development grant assistance are bound by the OSLAD outdoor recreation use requirements for a specified period up to 20 years depending on the amount of OSLAD funds expended on the project.

PROGRAM PRIORITIES

As stipulated in the OSLAD Act, priorities for grant allocations are given to projects that:

- Provide the greatest benefit to the residents of the areas of the State that have the highest concentration or density of population; and/or
- Are based on criteria established by the Department that reflect outdoor recreation needs and priorities identified through the State Comprehensive Outdoor Recreation Plan (SCORP)

APPLICATION EVALUATION

An objective application evaluation instrument has been developed based on the above program priorities and regularly updated to reflect current priorities outlined in the Department's comprehensive five-year outdoor recreation plan and various other planning efforts.

Application for funding assistance will not be considered by the Department if:

- a) An unresolved program violation exists relative to a previous grant project or;
- b) The local applicant has failed to provide local recreation facilities information as requested by the Department for the Illinois Recreation Facilities Inventory (IRFI), a critical component for assessing statewide needs.

GRANT AWARDS

The following list of grants were funded with FY22 and FY23 funds. The FY22 funded 87 grants, and FY23 funded 119 grants for a total of 206 grants awarded in FY23. The 206 awards to local governments, counties, townships, municipalities, park districts, and forest preserves total \$91,007,769 for acquisition and development projects. The OSLAD program is funding recreational opportunities in 59 counties, including multiple grants/projects in counties such as Champaign, Cook, DuPage, Peoria, Sangamon, to name a few. Twenty-seven (27) communities identified as distressed received grants at a 100% funding level.
