M E M O R A N D U M

TO: The Honorable JB Pritzker, Governor

The Honorable Tony McCombie, House Minority Leader

The Honorable Don Harmon, Senate President The Honorable John Curran, Senate Minority Leader

The Honorable Emanuel "Chris" Welch, Speaker of the House

Dr. Tony Sanders FROM:

State Superintendent of Education

DATE: January 12, 2024

SUBJECT: Prevention Initiative Biennial Report: Fiscal Years 2020 and 2021

Pursuant to Section 2-3.89 of the School Code [105 ILCS 5/2-3.89], the Illinois State Board of Education respectfully submits the Prevention Initiative Biennial Report: Fiscal Years 2020 and 2021 to the governor and the General Assembly. This report considers the characteristics of the children, parents, and families served; types of services delivered; and program models used by funded projects to address the needs of those receiving services. It also provides information on location of Prevention Initiative program sites.

Internal controls have been implemented to ensure the timely submission of future statutorily required reports.

This report is transmitted on behalf of the State Superintendent of Education. For additional copies of this report or for more specific information, please contact Dana Stoerger, Executive Director, Legislative Affairs at (217) 782-6510 or dstoerge@isbe.net.

Foreword

This Prevention Initiative (PI) Biennial Report for fiscal years 2020 and 2021 intends to fulfill the requirements of Section 2-3.89 (c) of the Illinois School Code (105 ILCS 5/2-3.89):

"The State Board of Education shall report to the General Assembly by July 1, 2006 and every 2 years thereafter, using the most current data available, on the status of programs funded under this Section, including without limitation characteristics of participants, services delivered, program models used, unmet needs, and results of the programs funded."

Collection of program information contained herein occurred in FY 2020 and FY 2021 from various sources as outlined in the Discussion of Data section. Analysis and commentary of these data center on the deliverables outlined in the legislation above:

- 1. Demographic and risk indicator characteristics of children and caregivers served by entities that received funding from PI programs
- 2. Program models used by programs to provides services
- 3. Surveyed results from caregivers who received services and from providers who observed caregiver development through the program
- 4. Unmet needs identified across the state using U.S. Census Bureau risk indicator data overlaid with FY 2021 PI service footprint

For more information, please contact Carisa Hurley, Director of the Department of Early Childhood, at (217) 524-4835.

Program Background

The Prevention Initiative (PI) program, which was established in 1988, is authorized by Section 2-3.89 of the Illinois School Code (105 ILCS 5/2-3.89). Prevention Initiative is one of three major programs funded through the Early Childhood Block Grant (ECBG). In FY 2016, the ECBG funded Preschool for All (PFA) in addition to PI. In FY 2017, the ECBG funded three programs, adding Preschool for All Expansion (PFAE). The ECBG's purpose is to provide early, continuous, intensive, and comprehensive evidence-based child development and family support services to help families prepare their young children for later school success. PI funds from the ECBG supports programs and services for children birth to age three and their caregivers.

The PI program receives funding from an infant/toddler set-aside from the ECBG, targeted at 20 percent. Effective July 21, 2016, under Section 1C-2(c) of the School Code, at least 25 percent of any additional ECBG funding over and above the previous year's allocation will be used to fund programs in the infant toddler set-aside. The State Board is exempted from meeting these minimum percentages when, in a given fiscal year, the amount appropriated for the ECBG is insufficient to increase the PI allocation without reducing the amount of the ECBG for existing providers of preschool education programs. Currently, the ECBG infant/toddler set-aside for PI is 23 percent.

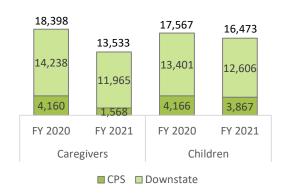

PI funds are distributed to eligible applicants on a competitive basis. Eligible entities include public school districts, university laboratory schools approved by ISBE, charter schools, area vocational centers, and public or private not-for-profit or for-profit entities with experience in providing educational, health, social, and/or child development services to young children and their families. The Illinois Administrative Rules require PI grantees to implement research-based, comprehensive, and intensive prevention services to expecting parents and families with children birth to age 3 years who are at risk of academic failure. Examples of the research-based models currently receiving PI funding are center-based services that adhere to the requirements of DCFS licensing; or evidence-based, home-based services that adhere to the requirements of Baby TALK, Early Head Start, Healthy Families America, Nurse Family Partnership, or Parents as Teachers program models. All the program models share common components, such as home/personal visits, links to community resources, screening and developmental monitoring, and individual family goal planning processes. PI programs may be home visiting only or center-based.

Executive Summary

Data Highlights

Enrollment Counts

The number of children and caregivers served through PI programs was higher in 2020 than 2021 as shown in Figure 1.

Demographic Traits and Risk Indicators

Figure 1 - Caregiver and Child counts in FY 2020 and FY 2021 by CPS and Downstate

From Figure 2, nearly

72 percent of all children served by PI programs in FY 2020 and FY 2021 identified as belonging to a racial or ethnic minority. Close to 45 percent of those served belonged to a family receiving food stamps/ Link benefits. Families receiving a housing subsidy saw a drop from FY 2020 to FY 2021. Families experiencing homelessness remained stable. In 2021 children served that were in foster care decreased.

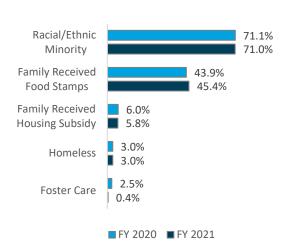

Figure 2 - Child demographic traits and risk indicators as a percentage of all participating children served in FY 2020 and FY 2021

Figure 3 shows caregiver demographic traits and risk indicators. There was an increase in caregivers identifying as being racial/ethnic minorities from 2020 to 2021. Education and employment still prove to be major factors for these children as significant percentages of caregivers indicate has having a high school diploma/GED or less or being unemployed. From 2020 to 2021 more caregivers indicated being the biological mother.

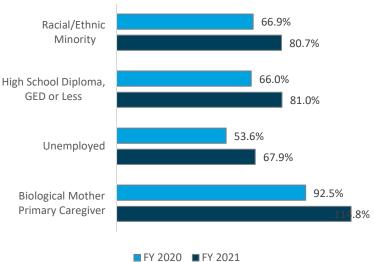

Figure 2 - Caregiver demographic traits and risk indicators as a percentage of all participating caregivers served in FY 2020 and FY 2021

Program Models¹

The Parents as Teachers program model was implemented and serving nearly 57 percent of all children served. The Baby TALK program model follows-up and was used to serve approximately 35 percent of all PI children. Figure 4 displays the mix of all programs currently being used by Prevention Initiative programs across the state in FY 2020 and FY 2021.

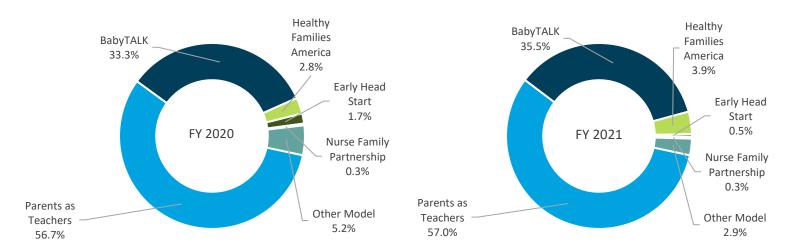

Figure 3 - Percentage of participating children served by program model used in FY 2020 and FY 2021

Discussion of Data

Data Limitations

Program data submitted through ISBE Web Application Security (IWAS) is self-reported information for each PI program. To ensure data quality, SIS provides a comprehensive data import process that validates information uploaded into SIS follows required element guidelines including appropriate data types, field length and business logic. SIS also provides a data quality dashboard where programs can review uploaded data and identify missing elements. Finally, SIS provides programs the ability to indicate erroneous records to prevent their inclusion into final reports. A complete list of validations is maintained in the Student Information System (SIS) System Validations² document. SIS also provides a data quality dashboard where programs can identify potential issues.

Sources

ISBE Web Application Security (IWAS)

PI programs across the state interact with ISBE through a common access point known as IWAS. IWAS allows credential provisioning and authentication for all ISBE data systems. Programs are granted access to a number of data systems ranging in function from simple data collection to end to end grant application processing. ISBE staff can communicate with programs through IWAS mass email (blasts) that include reminders on due dates, changes in data collection or other data related notifications.

Student Information System (SIS)

SIS is a statewide data system developed by ISBE and IBM Corp. PI programs submit child and caregiver records with the required elements outlined in the SIS Data Elements³ documentation. These data include demographic information, enrollment details and risk indicators. In addition to data collection, SIS allows programs to view descriptive reports of their data.

Electronic Grants Management System (eGMS)

The eGMS provides a common and consistent grant process for education agencies as well as ISBE staff. Programs can apply, amend, and submit grant applications directly to ISBE. Data contained in eGMS include financial/budgetary information, program details, estimated enrollment counts, and directory information.

Prevention Initiative Parent Questionnaire (PIPQ)⁴

A caregiver (a parent or a guardian) of each child served by a program that receives PI funds is asked to complete the PIPQ. This survey assesses participant knowledge, attitudes and behaviors in relation to child development, child care and self-care. This survey was first implemented in FY 2013.

Prevention Initiative Outcomes Questionnaire (PIOQ)⁵

Staff from programs that receives PI funds are required to complete the PIOQ. Responses to the questionnaire are based on the Individual Family Service Plan (IFSP) and subsequent case notes completed for each family served by the PI program. This survey assesses participant knowledge, attitudes and behavior in relation to child development, child care and self-care. The survey also included questions on self-improvement pursuits and utilization of comprehensive services. The PIOQ, originally implemented in FY 2013, was expanded in FY 2016 to include more questions related to the utilization of comprehensive services.

³ See Links for hyperlink to SIS data elements documentation

⁴ See Prevention Initiative Parent Questionnaire for detailed information

⁵ See Prevention Initiative Outcomes Questionnaire for detailed information

Illinois Early Childhood Asset Map (IECAM)

IECAM is an early childhood access point for data, legislation and resources partially funded by ISBE. IECAM's stated goals are to provide assistance in the legislative process, to make public resource allocation transparent and to enhance access to data germane to early childhood (IECAM, 2020). For purposes of this report, IECAM provides access to U.S. Census Bureau demographic data and risk indicator population estimates. IECAM uses Public Use Microdata Sample (PUMS) data, ISBE data, and geographic data to provide geographical context to early childhood needs and services across the state.

Data Tables

The following data tables provide a demographic profile of the population being served by PI programming, questionnaire responses from caregivers served and PI program staff observing caregivers, and budgetary/service level information. Broadly, these data are used to ensure program accountability, to ensure equity and accessibility, to confirm priority populations are being served, and to identify future needs.

Children tend to be at highest risk of academic failure when poverty and low parental education levels are present (Rathbyn, West, & Walston, 2005). More than 50 percent of all caregivers served in FY 2020 and FY 2021 were unemployed, and almost 60 percent of children served came from families receiving WIC benefits. In addition, more than 40% of children served in FY 2020 and FY 2021 received Food Stamps. Up to 58 percent of caregivers served in FY 2020 and FY 2021 had less than a high school diploma. These data suggest that PI programming served a population in FY 2020 and FY 2021 that overwhelmingly exhibited risk factors associated with lower academic performance.

Caregiver responses were overwhelmingly positive in their assessment of their own progress. Over 99 percent of all respondents in FY 2020 and FY 2021 indicated that they "Agreed" or "Strongly Agreed" the program helped them become a better parent. Program staff, evaluating caregivers, responded that nearly 80% of caregivers made "Progress" or "Accomplished" Parental Goals throughout their time in the program. In addition, of note, staff responses indicate 60% of caregivers assessed made progress toward or accomplished educational goals, indicating that PI programming provided positive movement toward reducing a major academic risk factor for children.

Caregiver Demographics

Table 1 - Number and percentage of participating caregivers by relationship to child

	FY 2020 Caregiver Count	Percent of Total	FY 2021 Caregiver Count	Percent of Total
Biological Mother	17,027	92.5%	15,533	91.9%

Total Respondents	8,097	7,617

Statement Key:

- 1 I feel good about myself as a parent
- 2 I understand how my child grows
- 3 I know about how to help my child stay healthy
- 4 I take my child to the doctor regularly
- 5 I know how to get my child interested in appropriate play activities
- 6 I am able to respond appropriately to my child even when I am upset
- 7 I am able to keep my child safe
- 8 I encourage my child to move around, explore and play
- 9 I am able to parent even though it can be challenging
- 10 I am able to set appropriate limits for my child
- 11 I know how to show my child love, physical closeness and positive feelings
- 12 I know different ways to respond to my child's needs, emotions and behaviors
- 13 I do activities that promotes brain development (sing, nursery rhymes, toys)
- 14 I know how to get support for me and my child
- 15 I know how to find community resources for me and my child
- 16 Participation in this program has helped me become a better parent

⁶ See Prevention Initiative Parent Questionnaire for detailed information

Statement Key:

Parental Goals

- 1 Parent displays his/her rights and responsibilities as a parent
- 2 Parent obtains quality prenatal care/postnatal care
- 3 Parent displays knowledge of the importance of family relationships and how they affect their child
- 4 Parent engages in coping techniques (breathing, exercise, etc.)
- 5 Parent shows love/warmth, physical closeness, and positive feelings to child
- 6 Parent responds to child's cues, feelings, words, interests, and behaviors
- 7 Parent supports/encourages child's exploration, curiosity, and play
- 8 Parent engages in setting appropriate limits
- 9 Parent initiates appropriate play activities
- 10 Parent responds to child's health concerns and well-baby checks
- 11 Parent provides for the nutritional needs of the child
- 12 Parent promotes child's physical/motor development
- 13 Parent promotes child's social and emotional development
- 14 Parent promotes child's speech and language development
- 15 Parent promotes cognitive development including problem solving
- Parent is actively seeking recommended services, such as suggested referrals (e.g. mental health issues, WIC, etc.)

Educational Progress

- 17 English Learner (EL)
- 18 Adult Education
- 19 Vocational Education
- 20 High School
- 21 GED
- 22 College

Utilization of Comprehensive Services

- 23 Alcohol/drug abuse programs
- 24 Smoking cessation (education or programs)
- 25 Housing Assistance
- 26 Child Care Resource and Referral CCR&R (CCAP)
- 27 Child care
- 28 Child and Family Connections/Early Intervention
- 29 Mental health services (e.g., individual or family counseling)

Statement Key:

- 30 Mental health services (e.g., support groups)
- 31 Domestic violence services (e.g., education, shelter services, counseling, etc.)
- 32 Salvation Army, thrift stores, etc. (e.g., furniture clothing, etc.)
- 33 Food security (e.g., food pantries/banks)
- 34 Health Services (including prenatal care, birth control, well child visits, immunizations, etc.)
- 35 Primary care physicians (e.g., finding, establishing a medical home)
- 36 Legal services/needs
- 37 Employment assistance
- 38 Utility assistance
- 39 Obtaining public assistance and services (e.g., public aid, Illinois LINK, TANF, WIC, etc.)
- 40 Financial Stability (e.g., cleaning up bad credit, budgeting, etc.)
- 41 Family Issues (e.g., custody, visitation, child support, adoption)
- 42 Medical education/services (e.g., visually impaired, Down's Syndrome)
- 43 Literacy support/encouragement (e.g., obtaining library cards, lap sits, story time, etc.)
- 44 Transportation (e.g., bus passes, medical vans, obtaining license and insurance)
- 45 US citizenship assistance
- 46 Recreational activities
- 47 Transitions (e.g., starting childcare, moving, new sibling, weaning, and toilet learning, etc.)
- 48 Physical Fitness

Budget, Expenditures, and Service Levels

The following table contains data used by ISBE to identify programs meeting the budgetary requirements for receiving PI funding. Service levels are the most important expression of how programs use PI funds. Comparing the "To Be Served" total with the "Actually Served" total is a simple way to identify programs using PI funds effectively.

Table 10 - Budget, Expenditures, and Service Levels by program in FY 2020 and FY 2022

	Total Budget (\$)	Total Expenditures (\$)	Administrative Expenditures (\$)	Children To Be Served (#)	Children Actually Served (#)

Unmet Needs

Research shows that two primary factors can contribute to a child's future academic stagnation, when present at an early age: **poverty** and **limited parental education**. In addition to correlating with lower academic achievement, these factors are more likely to be present in the lives of children with multiple other risk factors (e.g, single parent household, primary home language other than English). (Rathbyn, West, & Walston, 2005)

In the State of Illinois, approximately 109,000 parents of children age 0-5 lack a completed high school education, accounting for 10 percent of parents of children age 0-5 statewide⁸. Meanwhile, more than 182,000 children age 5 and under live at or below the 100 percent Federal Poverty Level⁹. Visually exploring the spread of poverty and limited education in Illinois can yield a better understanding of where PI program sites are meeting the population's needs, and where needs are waiting to be met. The next few pages include an overlay of FY 2021 PI sites on top of poverty and education data by county throughout the State of Illinois.

Program Model Descriptions

The following program model descriptions come directly from the SIS data elements document for Birth to 3 data collection. For purposes of this report, consumption of analysis relating to program models should be informed by these definitions.

- Parents as Teachers Parents as Teachers is an evidence-based home visiting model providing a broad context of parenting education and family support, and building protective factors, especially for those families in vulnerable situations. At its core, Parents as Teachers is relationship-based and parenting-focused. Their approach and curriculum focus on parent-child interaction, development-centered parenting, and family well-being; on strengths, capabilities and skills; and on building protective factors within the family. Parents as Teachers serves a range of families with high needs—not just first-time parents, pregnant parents or teen parents—and offers services throughout the continuum from prenatal to kindergarten. More information found at https://parentsasteachers.org/.
- **Baby TALK** The Baby TALK mission is to positively impact child development and nurture healthy parent-child relationships during the critical early years. This is accomplished by: 1. Engaging others in the community who support young families, 2. Casting a net over your targeted population includes going where parents and children already are, 3. Learning about families guides professionals to affirm parent and child strengths and to strategize with parents about how to address family needs, 4. Arranging for services which are meaningful to a family's real needs. Home Visiting Program Model: More information found at http://www.babytalk.org.
- **Center Based** Center-based infant toddler care aims to improve the growth and development of children before they transition to Head Start or Preschool for All by providing early, continuous, intensive and comprehensive child development and family support services on a year-round basis. Children are enrolled in DCFS licensed childcare center for a minimum of 2.5 hours.
- Early Head Start (EHS)- Early Head Start targets low income pregnant women and families with children from birth through age 3 who are at or below the federal poverty level or are eligible for Part C services under the Individuals with Disabilities Education Act. The program focuses on providing high quality, flexible and culturally competent child development and parent support services with an emphasis on the role of the parent as the child's first, and most important, relationship. EHS programs include home- or center-based services, a combination of home and center-based programs, and family childcare services (services provided in childcare in home-based settings). EHS home-based services include (1) weekly 90-minute home visits and (2) two group socialization activities per month for parents and their children. More information found at https://eclkc.ohs.acf.hhs.gov/hslc
- Healthy Families The Healthy Families America (HFA) helps families manage life's challenges by building on their strengths. Local programs select the target population they plan to serve, including single parents or families with low income, substance abuse or domestic violence. The program offers weekly home visits, beginning prenatally or within the first three months after a child's birth and continuing through the first three to five years of life. HFA also Only available when the service location is "Home Visiting". Birth to Three Program Data Element Mandatory Data Type Code Value Description Validation Rules / Notes offers screenings and assessments and may include parent support groups, father involvement programs, and job training. Home Visiting Program Model: More information found athttp://www.healthyfamiliesamerica.org.
- Nurse Family Partnerships- The Nurse-Family Partnership (NFP) is designed for first-time, low-income mothers and their children. It includes one-on-one home visits by a trained public health registered nurse to participating clients. The visits begin early in the woman's pregnancy (with Only available when the service location is "Home Visiting". Birth to Three Program Data Element Mandatory Data Type Code Value Description Validation Rules / Notes program enrollment no later than the 28th week of gestation) and conclude when the woman's child

turns 2 years old. During visits, nurses work to reinforce maternal behaviors that are consistent with program goals and that encourage positive behaviors and accomplishments. Topics of the visits include prenatal care; caring for an infant; and encouraging the emotional, physical, and cognitive development of young children. Home Visiting Program Model: More information can be found at https://www.nursefamilypartnership.org/.

Prevention Initiative Parent Questionnaire

Program staff administer the Parent Questionnaire to at least one parent or caregiver, once for each child in the program who is at least one month old, before the end of the fiscal year or the final visit with the family (if a family transitions out of the program midyear). The questionnaire is anonymous for the parent or caregiver and the child.

The questionnaire contains 16 statements for the respondent to address. Each statement is rated on a scale of one to four where one indicates "Strongly Disagree", two indicates "Disagree", three indicates "Agree" and four indicates "Strongly Agree". Upon completion, program staff upload results to ISBE through IWAS. All results are required to be uploaded on or before July 1. (Department of Early Childhood, 2016)

Statement Key:

- 1 I feel good about myself as a parent
- 2 I understand how my child grows
- 3 I know about how to help my child stay healthy
- 4 I take my child to the doctor regularly
- 5 I know how to get my child interested in appropriate play activities
- 6 I am able to respond appropriately to my child even when I am upset
- 7 I am able to keep my child safe
- 8 I encourage my child to move around, explore and play
- 9 I am able to parent even though it can be challenging
- 10 I am able to set appropriate limits for my child
- 11 I know how to show my child love, physical closeness and positive feelings
- 12 I know different ways to respond to my child's needs, emotions and behaviors
- 13 I do activities that promotes brain development (sing, nursery rhymes, toys)
- 14 I know how to get support for me and my child
- 15 I know how to find community resources for me and my child
- 16 Participation in this program has helped me become a better parent

Prevention Initiative Outcomes Questionnaire

Program staff complete the Parent Questionnaire for each family, provided the child is at least one month old and the family has been enrolled at least one month, before the end of the fiscal year or the final visit with the family (if a family transitions out of the program midyear). The questionnaire is anonymous for the parent or caregiver, staff member and the child.

The questionnaire contains 48 statements for the respondent to address, divided into 3 outcome categories – Parental Goals, Educational Progress and Utilization of Comprehensive Services. Each statement is rated on a scale of one to five where one indicates "N/A", two indicates "Support", three indicates "No Progress", four indicates "Progress" and five indicates "Accomplished" (more details below). For responses of "No Progress", "Progress", or "Accomplished", documentation will be placed in the family's file to support the rating. Upon completion, program staff upload results to ISBE through IWAS. All results are required to be uploaded on or before July 1. (Department of Early Childhood, 2016)

Questionnaire Rating Key:

- 1. **N/A** (not applicable) = The topic/goal was achieved prior to enrollment with PI program OR the subject did not apply to the family
- 2. **Support** = The topic/goal was brought up by the professional; however, the parent did not see this as a priority for the family
- 3. No Progress = A goal was made but no progress was documented
- 4. **Progress** = The topic/goal was determined to be a priority for the family, a goal was made, and progress was documented
- 5. Accomplished = The goal was achieved

Statement Key:

Parental Goals

- 1 Parent displays his/her rights and responsibilities as a parent
- 2 Parent obtains quality prenatal care/postnatal care
- 3 Parent displays knowledge of the importance of family relationships and how they affect their child
- 4 Parent engages in coping techniques (breathing, exercise, etc.)
- 5 Parent shows love/warmth, physical closeness, and positive feelings to child
- 6 Parent responds to child's cues, feelings, words, interests, and behaviors
- 7 Parent supports/encourages child's exploration, curiosity, and play
- 8 Parent engages in setting appropriate limits
- 9 Parent initiates appropriate play activities
- 10 Parent responds to child's health concerns and well-baby checks
- 11 Parent provides for the nutritional needs of the child
- 12 Parent promotes child's physical/motor development
- 13 Parent promotes child's social and emotional development
- 14 Parent promotes child's speech and language development
- 15 Parent promotes cognitive development including problem solving
- Parent is actively seeking recommended services, such as suggested referrals (e.g. mental health issues, WIC, etc.)

Educational Progress

- 17 English Learner (EL)
- 18 Adult Education
- 19 Vocational Education
- 20 High School
- 21 GED
- 22 College

Statement Key:

Utilization of Comprehensive Services

- 23 Alcohol/drug abuse programs
- 24 Smoking cessation (education or programs)
- 25 Housing Assistance
- 26 Child Care Resource and Referral CCR&R (CCAP)
- 27 Child care
- 28 Child and Family Connections/Early Intervention
- 29 Mental health services (e.g., individual or family counseling)
- 30 Mental health services (e.g., support groups)
- 31 Domestic violence services (e.g., education, shelter services, counseling, etc.)
- 32 Salvation Army, thrift stores, etc. (e.g., furniture clothing, etc.)
- 33 Food security (e.g., food pantries/banks)
- 34 Health Services (including prenatal care, birth control, well child visits, immunizations, etc.)
- 35 Primary care physicians (e.g., finding, establishing a medical home)
- 36 Legal services/needs
- 37 Employment assistance
- 38 Utility assistance
- 39 Obtaining public assistance and services (e.g., public aid, Illinois LINK, TANF, WIC, etc.)
- 40 Financial Stability (e.g., cleaning up bad credit, budgeting, etc.)
- 41 Family Issues (e.g., custody, visitation, child support, adoption)
- 42 Medical education/services (e.g., visually impaired, Down's Syndrome)
- 43 Literacy support/encouragement (e.g., obtaining library cards, lap sits, story time, etc.)
- 44 Transportation (e.g., bus passes, medical vans, obtaining license and insurance)
- 45 US citizenship assistance
- 46 Recreational activities
- 47 Transitions (e.g., starting childcare, moving, new sibling, weaning, and toilet learning, etc.)
- 48 Physical Fitness
