

A Summary of Fees in Fiscal Year 2024

For fiscal year 2024, 106 state agencies, boards, and commissions submitted fee imposition reports to the Illinois Office of Comptroller. Of these agencies, 72 reported 1,665 fees generating \$13.744 billion in fee revenues, an increase of \$864 million, or 7%, over fiscal year 2023. Most agencies are authorized to levy fees and report fee revenues.

The accompanying chart lists the number of fees and the amount of fee revenues for each of the 72 agencies that generated and reported fee revenues in fiscal year 2024. Two agencies each collected more than \$3 billion in fee revenues, and combined made up 58% of the total reported fee revenues for fiscal year 2024: the Department of Healthcare and Family Services, which reported \$4.967 billion in fee revenues (36% of the fiscal year 2024 total), and the Secretary of State, which reported \$3.017 billion in fee revenues (22% of the fiscal year 2024 total). The three agencies reporting the most fee revenues and the state's nine public universities together collected \$12.416 billion, or 90% of total fee revenues for the fiscal year.

The nine state universities reported \$2.862 billion (21% of the total), and the Illinois State Toll Highway Authority reported \$1.571 billion in fee revenues (11% of the fiscal year 2024 total). The remaining agencies collected about 10% of fee revenues, reporting \$1.328 billion in revenues. Of that amount, 18 agencies (excluding constitutional offices, universities, boards, and the three largest collecting agencies) reported collecting at least \$10 million in fee revenues, totaling \$1.007 billion, or 7% of total fee revenues for the fiscal year. Other constitutional offices (not including the Secretary of State) reported \$12.5 million in fee revenues, less than 1% of the total for the fiscal year.
