<u>MEMORANDUM</u>

TO: The Honorable JB Pritzker, Governor

The Honorable Emanuel "Chris" Welch, Speaker of the House

The Honorable Tony McCombie, House Minority Leader

The Honorable Don Harmon, Senate President

The Honorable John Curran, Senate Minority Leader

FROM: Dr. Tony Sanders

State Superintendent of Education

DATE: October 4, 2024

SUBJECT: FY 2022 through FY 2023 Prevention Initiative Biennial Report

The Illinois State Board of Education respectfully submits this fiscal year 2022 through FY 2023 Prevention Initiative Biennial Report to the General Assembly in fulfillment of the requirements of Section 2-3.89, subsection C, of the Illinois School Code (105 ILCS 5/2-3.89).

This report examines characteristics of the children, parents, and families served; types of services delivered; program models used by funded projects to address the needs of those receiving services; and results of the funded programs. It also explores the spread of poverty and impact of limited education in Illinois to better understand where Prevention Initiative program sites are meeting the population's needs -- and where needs are still to be met.

This report is transmitted on behalf of the State Superintendent of Education. For additional information, please contact Dana Stoerger, Executive Director, Legislative Affairs at (217) 782-6510 or dstoerge@isbe.net.

cc: Secretary of the Senate

Foreword

This Prevention Initiative Biennial Report for fiscal years 2022 and 2023 intends to fulfill the requirements of Section 2-3.89 (c) of the Illinois School Code (105 ILCS 5/2-3.89):

"The State Board of Education shall report to the General Assembly by July 1, 2006 and every 2 years thereafter, using the most current data available, on the status of programs funded under this Section, including without limitation characteristics of participants, services delivered, program models used, unmet needs, and results of the programs funded."

Collection of program information contained herein occurred in FY 2022 and FY 2023 from various sources as outlined in the Discussion of Data section, which begins on page 7. Analysis and commentary of these data center on the deliverables outlined in the legislation cited above:

- 1. Demographic and risk indicator characteristics of children and caregivers served by entities that received funding from PI programs.
- 2. Program models used by programs to provide services.
- 3. Surveyed results from caregivers who received services and from providers who observed caregiver development through the program.
- 4. Unmet needs identified across the state using U.S. Census Bureau risk indicator data overlaid with FY 2023 PI service footprint.

For more information, please contact Carisa Hurley Davis, director of the Early Childhood Development Department, at 217-524-4835.

Program Background

The Prevention Initiative (PI) program, which was established in 1988, is authorized by Section 2-3.89 of the Illinois School Code (105 ILCS 5/2-3.89). Prevention Initiative is one of three major programs funded through the Early Childhood Block Grant (ECBG). Preschool for All and Preschool for All Expansion are also funded through ECBG. The purpose of Prevention Initiative is to provide early, continuous, intensive, and comprehensive research-based child development and family support services to help families prepare their young children for later school success. PI funds from the ECBG supports educational programs and services for children birth to age 3 and their caregivers.

The PI program receives funding from an infant/toddler set-aside from the ECBG, targeted at 20 percent. Section 1C-2(c) of the School Code has specified since July 2016 that at least 25 percent of any additional ECBG funding over and above the previous year's allocation will be used to fund programs in the infant/toddler set-aside. The State Board is exempted from meeting these minimum percentages when, in a given fiscal year, the amount appropriated for the ECBG is insufficient to increase the PI allocation without reducing the amount of the ECBG funds for existing providers of preschool education programs. Currently, the ECBG infant/toddler set-aside for PI is 25 percent.

PI funds are distributed to eligible applicants on a competitive basis. Eligible entities include public school districts; university laboratory schools approved by ISBE; charter schools; area vocational centers; and public or private not-for-profit or for-profit entities with experience in providing educational, health, social, and/or child development services to young children and their families. The Illinois Administrative Rules require PI grantees to implement research-based, comprehensive, and intensive prevention services to expecting parents and families with children birth to age 3 years who are at risk of academic failure. Examples of programs currently receiving PI funding are center-based programs that adhere to the requirements of licensure as it pertains to the Illinois Department of Children and Family Services (DCFS) or evidence-based home visiting programs that adhere to the requirements of Baby TALK, Early Head Start, Healthy Families America, Nurse Family Partnership, or Parents as Teachers program models. All of the programs share common components, such as links to community resources, child development screening and developmental monitoring, and individual family goal planning.

The General Assembly allocated an additional \$75 million to the Early Childhood Block Grant in FY 2023. The Allocation-Approach document provides an overview of how the ECBG funds were dispersed. A total of \$598,138,100 was appropriated by the General Assembly to the ECBG in FY 2023 -- PI home visiting had an increase of \$2,454,615 and PI center-based was increased by \$4,381,838.

Executive Summary

Data Highlights

Enrollment Counts

The number of children and caregivers served through downstate PI programs saw an increase from 2022 to 2023. However, the number of children and caregivers served through Chicago Public Schools (CPS) PI programs saw a dramatic decrease from 2022 to 2023 as indicated in Figure 1.

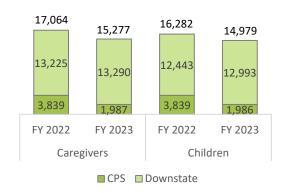

Figure 1 - Caregiver and child counts in FY 2022 and FY 2023 by CPS and downstate

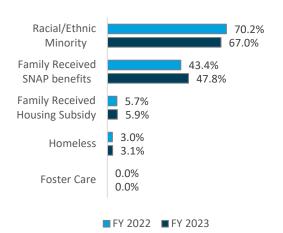

Figure 2 - Child demographic traits and risk indicators as a percentage of all participating children served in FY 2022 and FY 2023

Demographic Traits and Risk Indicators

The majority of all children served by PI programs in FY 2022 and FY 2023 identified as belonging to a racial or ethnic minority as indicated in Figure 2. Close to 48 percent of those served belonged to a family receiving Supplemental Nutrition Assistance benefits in FY 2023. Families receiving a housing subsidy saw a slight increase from FY 2022 to FY 2023. The number of children experiencing homelessness and children in foster care remained relatively stable populations in FY 2022 and FY 2023 making up approximately 3 percent and 0 percent of all PI children served, respectively.

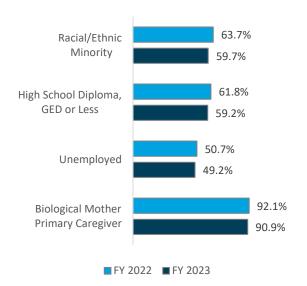

Figure 3 - Caregiver demographic traits and risk indicators as a percentage of all participating caregivers served in FY 2022 and FY 2023

Figure 3 shows caregiver demographic traits and risk indicators. A notable change was an increase of the number of caregivers from a racial/ethnic minority from almost 60 percent in FY 2022 to almost 64 percent in FY 2023. Education and employment still prove to be a major factor for children enrolled in a PI program, with roughly 60 percent of primary caregivers indicating having a high school/GED education level or less and approximately half indicating currently unemployed. Most primary caregivers identify as the biological mother.

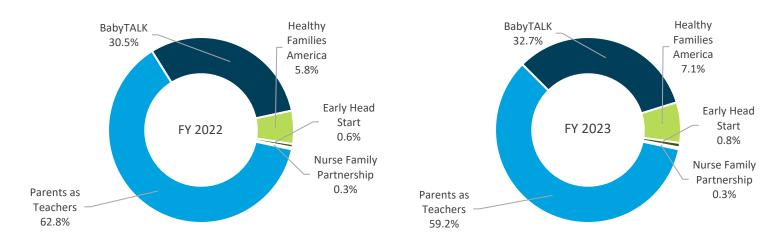

Figure 4 - Percentage of participating children served by program model used in FY 2022 and FY 2023

Figure 4 displays the mix of all evidence-based home visiting program models being implemented by Prevention Initiative programs across the state in FY 2022 and FY 2023. The Parents As Teachers program model was used to serve more than 59 percent of all PI children. Baby TALK follows up, being used to serve nearly one-third of children. Healthy Families America, Early Head Start, and Nurse Family Partnership program models were used to serve the remainder of children.

¹ See Program Model Descriptions on page 30 for model definitions.

Discussion of Data

Data Limitations

Program data submitted through ISBE Web Application Security (IWAS) system is self-reported information by each PI program. The Student Information System (SIS) ensures data quality by providing a comprehensive data import process that validates that information being uploaded into SIS follows required element guidelines, including appropriate data types, field length, and business logic. SIS also provides a data quality dashboard in which programs can review uploaded data and identify missing elements. Finally, SIS provides programs the ability to indicate erroneous records to prevent their inclusion into final reports. A complete list of validations is maintained in the Student Information System (SIS) System Validations document. SIS also provides a data quality dashboard where programs can identify potential issues.

Sources

ISBE Web Application Security

PI programs across the state interact with ISBE through a common access point known as the IWAS system. IWAS allows credential provisioning and authentication for all ISBE data systems. Programs are granted access to a number of data systems ranging in function from simple data collection to end-to-end grant application processing. ISBE staff can communicate with programs through IWAS mass email (blasts) that include reminders on due dates, changes in data collection, or other data-related notifications.

Student Information System

SIS is a statewide data system developed by ISBE and IBM Corp. PI programs submit child and caregiver records with the required elements outlined on the ISBE Data Elements and Validations webpage. documentation. These data include demographic information, enrollment details and risk indicators. In addition to data collection, SIS allows programs to view descriptive reports of their data.

Electronic Grants Management System

The electronic Grants Management System (eGMS) provides a common and consistent grant process for education agencies as well as ISBE staff. Programs can apply, amend, and submit grant applications directly to ISBE. Data contained in eGMS include financial/budgetary information, program details, estimated enrollment counts, and directory information.

Prevention Initiative Parent Questionnaire

A caregiver (parent or guardian) of each child served by a program that receives PI funds is asked to complete the Prevention Initiative Parent Questionnaire (PIPQ). This survey, which was implemented in FY 2013 assesses participant knowledge, attitudes and behaviors in relation to child development, childcare and self-care.

Prevention Initiative Outcomes Questionnaire

Staff from programs that receive PI funds are required to complete the Prevention Initiative Outcomes Questionnaire (PIOQ). Responses to the questionnaire are based on the Individual Family Goal Plan and subsequent case notes completed for each family served by the PI program. This survey assesses participant knowledge, attitudes, and behaviors in relation to child development, child care, and self-care. The survey also included questions on self-improvement pursuits and utilization of comprehensive services. The PIOQ, originally implemented in FY 2013, was expanded in FY 2016 to include more questions related to the utilization of comprehensive services.

Illinois Early Childhood Asset Map

The Illinois Early Childhood Asset Map (IECAM) is an early childhood access point for data, legislation, and resources partially funded by ISBE. IECAM's stated goals are to provide assistance in the legislative process, to make public resource allocation transparent, and to enhance access to data germane to early childhood (IECAM, 2022). For purposes of this report, IECAM provides access to U.S. Census Bureau demographic data and risk indicator population estimates. IECAM uses Public Use Microdata Area (PUMA) data, ISBE data, and geographic data to provide geographical context to early childhood needs and services across the state.

Data Tables

The following data tables provide a demographic profile of the population being served by PI programming, questionnaire responses from caregivers being served and PI program staff who are observing caregivers, and budgetary/service level information. Broadly, these data are used to ensure program accountability, to ensure equity and accessibility, to confirm priority populations are being served, and to identify future needs.

Children tend to be at highest risk of academic failure when poverty a low parental education levels are present (Rathbyn, West, & Walston, 2005). Approximately 50 percent of all caregivers served in FY 2022 and FY 2023 were unemployed, and around 60 percent of children served came from families receiving Women, Infants, and Children (WIC) benefits. In addition, between 43 and 48 percent of children served in FY 2022 and FY 2023 received Supplemental Nutrition Assistance Benefits (SNAP) benefits. Over half of caregivers served in FY 2022 and FY 2023 had not earned a high school diploma. These data suggest that PI programming served a population in FY 2022 and FY 2023 that overwhelmingly exhibited risk factors associated with lower academic performance.

Caregiver responses were overwhelmingly positive in their assessment of their own progress. Over 98 percent of all respondents in FY 2022 and FY 2023 indicated that they "Agreed" or "Strongly Agreed" the program helped them become a better parent. Program staff who evaluated caregivers indicated an increase in a caregiver's ability to access services to improve their family's health and well-being throughout their time in the program. Over 80% of caregivers indicated that they had made "Progress" or "Accomplished" the goal of obtaining quality prenatal care/postnatal care. Over 75% of caregivers indicated that they had made "Progress" or "Accomplished" the goal of accessing other health services, such as birth control, well child visits, and immunizations. Also of note, over 50% of caregivers had made "Progress" or "Accomplished" the goal of obtaining financial security. These PI outcomes are a positive movement toward removing major risks factors for children and supporting families in their endeavor to become more self-sufficient.

Caregiver Demographics

Table 1 - Number and percentage of participating caregivers by relationship to child

	FY 2022 Caregiver Count	Percent of Total	FY 2023 Caregiver Count	Percent of Total

Total Respondents	7,249	6,776

Statement Key:

- 1 I feel good about myself as a parent.
- 2 I understand how my child grows.
- 3 I know about how to help my child stay healthy.
- 4 I take my child to the doctor regularly.
- 5 I know how to get my child interested in appropriate play activities.
- 6 I am able to respond appropriately to my child even when I am upset.
- 7 I am able to keep my child safe.
- 8 I encourage my child to move around, explore and play.
- 9 I am able to parent even though it can be challenging.
- 10 I am able to set appropriate limits for my child.
- 11 I know how to show my child love, physical closeness and positive feelings.
- 12 I know different ways to respond to my child's needs, emotions and behaviors.
- 13 I do activities that promotes brain development (sing, nursery rhymes, toys).
- 14 I know how to get support for my child and myself.
- 15 I know how to find community resources for my child and myself.
- 16 Participation in this program has helped me become a better parent.

Statement Key:

Parental Goals

- 1 Displays parental rights and responsibilities.
- 2 Parent obtains quality prenatal care/postnatal care.
- 3 Parent displays knowledge of the importance of family relationships and how they affect their child.
- 4 Parent engages in coping techniques (breathing, exercise, etc.).
- 5 Parent shows love/warmth, physical closeness, and positive feelings to child.
- 6 Parent responds to child's cues, feelings, words, interests, and behaviors.
- 7 Parent supports/encourages child's exploration, curiosity, and play.
- 8 Parent engages in setting appropriate limits.
- 9 Parent initiates appropriate play activities.
- 10 Parent responds to child's health concerns and well-baby checks.
- 11 Parent provides for the nutritional needs of the child.
- 12 Parent promotes child's physical/motor development.
- 13 Parent promotes child's social and emotional development.
- 14 Parent promotes child's speech and language development.
- 15 Parent promotes cognitive development including problem solving.
- Parent is actively seeking recommended services, such as suggested referrals (e.g. mental health issues, WIC, etc.).

Educational Progress

- 17 English Learning Education
- 18 Adult Education
- 19 Vocational Education
- 20 High School
- 21 GED
- 22 College

Utilization of Comprehensive Services

- 23 Alcohol/drug abuse programs
- 24 Smoking cessation (education or programs)
- 25 Housing assistance
- 26 Child Care Resource and Referral (Child Care Assistance Program)
- 27 Child care
- 28 Child and Family Connections/Early Intervention
- 29 Mental health services (e.g., individual or family counseling)

Statement Key:

- 30 Mental health services (e.g., support groups)
- 31 Domestic violence services (e.g., education, shelter services, counseling, etc.)
- 32 Salvation Army, thrift stores, etc. (e.g., furniture clothing, etc.)
- 33 Food security (e.g., food pantries/banks)
- 34 Health services (including prenatal care, birth control, well child visits, immunizations, etc.)
- 35 Primary care physicians (e.g., finding, establishing a medical home)
- 36 Legal services/needs
- 37 Employment assistance
- 38 Utility assistance
 - Obtaining public assistance and services (e.g., public aid, Illinois LINK, Temporary Assistance for Needy Families
- 39 [TANF], WIC, etc.)
- 40 Financial stability (e.g., cleaning up bad credit, budgeting, etc.)
- 41 Family issues (e.g., custody, visitation, child support, adoption)
- 42 Medical education/services (e.g., visually impaired, Down's Syndrome)
- 43 Literacy support/encouragement (e.g., obtaining library cards, lap sits, story time, etc.)
- 44 Transportation (e.g., bus passes, medical vans, obtaining license and insurance)
- 45 U.S. citizenship assistance
- 46 Recreational activities
- 47 Transitions (e.g., starting childcare, moving, new sibling, weaning, and toilet learning, etc.)
- 48 Physical fitness

Budget, Expenditures, and Service Levels

The following table contains data used by ISBE to identify programs meeting the budgetary requirements for receiving PI funding. Service levels are the most important expression of how programs use PI funds. Comparing the "To Be Served" total with the "Actually Served" total is a simple way to identify programs using PI funds effectively.

Table 10 - Budget, expenditures, and service levels by program in FY 2022 and FY 2023

	Total Budget (\$)	Total Expenditures (\$)	Administrative Expenditures (\$)	Children To Be Served (#)	Children Actually Served (#)
010050010	26 - Brown Coun		Experiarcares (\$)	(#)	(#)

Table 11 - Budget, expenditure, and service level totals for all programs in FY 2022 and FY 2023

		Total Expenditures	Administrative	Children To Be	Children Actually
	Total Budget (\$)	(\$)	Expenditures (\$)	Served (#)	Served (#)
2022	\$116,741,793	\$108,332,342	\$3,815,267	17,762	16,004
2023	\$133,841,390	\$121,223,520	\$4,507,374	19,340	14,551

Unmet Needs

Research shows that two primary factors can contribute to a child's future academic stagnation when present at an early age -- **poverty** and **limited parental education**. In addition to correlating with lower academic achievement, these factors are more likely to be present in the lives of children with multiple other risk factors (e.g., single parent household, primary home language other than English). (Rathbyn, West, & Walston, 2005).

Approximately 80,000 parents of children aged 0-5 in the state of Illinois had not completed high school as of FY 2022, accounting for 8 percent of parents of children aged 0-5 statewide, according to IECAM. Meanwhile, more than 145,000 children aged 5 and under live at or below the 100 percent Federal Poverty Level in FY 2022, according to IECAM. Visually exploring the spread of poverty and limited education in Illinois can yield a better understanding of where PI program sites are meeting the population's needs and where needs are waiting to be met. The next few pages include an overlay of FY 2023 PI sites on top of poverty and education data by county throughout the state of Illinois.

Unmet Needs – Poverty

Children Age 5 and under Living at Various Federal Poverty Levels (FPLs) with PI Site Overlay

Program Model Descriptions

Definitions are included below for your consideration as you analyze this report.

- Parents as Teachers: Parents as Teachers is an evidence-based home visiting model providing parenting education and family support, and building protective factors, especially for those families in vulnerable situations. At its core, Parents as Teachers is relationship-based and parenting-focused. Its approach and curriculum focus on parent-child interaction, development-centered parenting, and family well-being; on strengths, capabilities, and skills; and on building protective factors within the family. Parents as Teachers empowers families everywhere to build strong communities, help families thrive, and ensure children are healthy, safe, and learning.
- Baby TALK: Baby TALK, which was founded in 1986, is an educational, nonprofit organization based in Decatur, whose mission is to positively impact child development by nurturing healthy and responsive relationships during the critical early years. Baby TALK is an evidence-based community model that provides a framework to guide home visitors in nurturing school readiness and optimal child development in their community by providing opportunities for infants, toddlers, and their caregivers. Baby TALK helps parents during this critical time to empower and encourage them as parents, providing direct and innovative services to all families, with more intensive services dedicated to families who may request more support because of income, age, or education.
- Healthy Families America: The Healthy Families America (HFA) evidence-based home visiting program model is a voluntary program that works with expectant and new parents. HFA has worked for nearly 30 years toward a singular vision: All children receive nurturing care from their family that leads to a healthy, long, and successful life. Intensive home visiting enables HFA to strengthen the parent/child relationship, and promote positive parenting and healthy child growth and development. Home visits are offered weekly for the first six months and may continue for up to five years, with the length and frequency determined by the needs of the family. The program models positive parenting skills and provides information on child growth, development, and safety.
- **Nurse-Family Partnership:** Nurse-Family Partnership is an evidence-based community health program that provides specially educated nurses who offer regularly scheduled home visits to first-time moms, starting early in the pregnancy and continuing until the child's second birthday. A goal of this model is to improve pregnancy outcomes by partnering with moms to engage in good preventative health practices, including thorough prenatal care from their health care providers, improving their diets, and reducing use of habit-forming substances.
- **Early Head Start:** Early Head Start programs provide family-centered services for low-income families with very young children. These programs are designed to promote the development of the children and to enable their parents to fulfill their roles as parents and to move toward self-sufficiency. Early Head Start programs follow the general Head Start model in that they support parents, both mothers and fathers, in their role as primary caregivers and teachers of their children.
- **Center Based:** Center-based infant toddler care aims to improve the growth and development of children before they transition to Head Start or Preschool for All by providing early, continuous, intensive, and comprehensive child development and family support services on a year-round basis. Children are enrolled in a DCFS-licensed child care center for a minimum of 2.5 hours each day, five days a week.

Other Approved Model(s): Prevention-Initiative-Program-HV-CB-Criterion.pdf

Prevention Initiative Parent Questionnaire

Program staff administer the PI Parent Questionnaire to at least one parent or caregiver once for each child in the program who is at least 1 month old before the end of the fiscal year or during the final visit with the family (if a family transitions out of the program midyear). The questionnaire is anonymous for the parent or caregiver and the child.

The questionnaire contains 16 statements for the respondent to address. Each statement is rated on a scale of 1 to 4 where 1 indicates "Strongly Disagree," 2 indicates "Disagree," 3 indicates "Agree," and 4 indicates "Strongly Agree." Upon completion, program staff upload results to ISBE through IWAS. All results are required to be uploaded for each fiscal year. (Early Childhood Development Department, 2022-23)

Statement Key:

- 1 I feel good about myself as a parent.
- 2 I understand how my child grows.
- 3 I know about how to help my child stay healthy.
- 4 I take my child to the doctor regularly.
- 5 I know how to get my child interested in appropriate play activities.
- 6 I am able to respond appropriately to my child even when I am upset.
- 7 I am able to keep my child safe.
- 8 I encourage my child to move around, explore and play.
- 9 I am able to parent even though it can be challenging.
- 10 I am able to set appropriate limits for my child.
- 11 I know how to show my child love, physical closeness and positive feelings.
- 12 I know different ways to respond to my child's needs, emotions and behaviors.
- 13 I do activities that promotes brain development (sing, nursery rhymes, toys).
- 14 I know how to get support for my child and myself.
- 15 I know how to find community resources for my child and myself.
- 16 Participation in this program has helped me become a better parent.

Prevention Initiative Outcomes Questionnaire

Program staff complete the PI Outcomes Questionnaire for each family, provided the child is at least 1 month old and the family has been enrolled at least one month. The questionnaire is anonymous for the parent or caregiver, staff member, and the child.

The questionnaire contains 48 statements for the respondent to address, divided into three outcome categories — Parental Goals, Educational Progress, and Utilization of Comprehensive Services. Each statement is rated on a scale of 1 to 5 where 1 indicates "N/A," 2 indicates "Support," 3 indicates "No Progress," 4 indicates "Progress," and 5 indicates "Accomplished." (More details below.) Documentation will be placed in the family's file to support ratings of "No Progress," "Progress," or "Accomplished." Upon completion, program staff upload results to ISBE through IWAS. All results are required to be uploaded each fiscal year. (Early Childhood Development Department, 2022-23)

Questionnaire Rating Key:

- 1. **N/A** (not applicable) = The topic/goal was achieved prior to enrollment with PI program OR the subject did not apply to the family.
- 2. **Support** = The topic/goal was brought up by the professional; however, the parent did not see this as a priority for the family.
- 3. **No Progress** = A goal was made but no progress was documented.
- 4. **Progress** = The topic/goal was determined to be a priority for the family, a goal was made, and progress was documented.
- 5. **Accomplished** = The goal was achieved.

Statement Key:

Parental Goals

- 1 Displays parental rights and responsibilities.
- 2 Parent obtains quality prenatal care/postnatal care.
- 3 Parent displays knowledge of the importance of family relationships and how they affect their child.
- 4 Parent engages in coping techniques (breathing, exercise, etc.).
- 5 Parent shows love/warmth, physical closeness, and positive feelings to child.
- 6 Parent responds to child's cues, feelings, words, interests, and behaviors.
- 7 Parent supports/encourages child's exploration, curiosity, and play.
- 8 Parent engages in setting appropriate limits.
- 9 Parent initiates appropriate play activities.
- 10 Parent responds to child's health concerns and well-baby checks.
- 11 Parent provides for the nutritional needs of the child.
- 12 Parent promotes child's physical/motor development.
- 13 Parent promotes child's social and emotional development.
- 14 Parent promotes child's speech and language development.
- 15 Parent promotes cognitive development including problem solving.
- Parent is actively seeking recommended services, such as suggested referrals (e.g. mental health issues, WIC, etc.).

Educational Progress

- 17 English Learning Education
- 18 Adult Education
- 19 Vocational Education
- 20 High School
- 21 GED
- 22 College

Statement Key:

Utilization of Comprehensive Services

- 23 Alcohol/drug abuse programs
- 24 Smoking cessation (education or programs)
- 25 Housing assistance
- 26 Child Care Resource and Referral (Child Care Assistance Program)
- 27 Child care
- 28 Child and Family Connections/Early Intervention
- 29 Mental health services (e.g., individual or family counseling)
- 30 Mental health services (e.g., support groups)
- 31 Domestic violence services (e.g., education, shelter services, counseling, etc.)
- 32 Salvation Army, thrift stores, etc. (e.g., furniture clothing, etc.)
- 33 Food security (e.g., food pantries/banks)
- 34 Health services (including prenatal care, birth control, well child visits, immunizations, etc.)
- 35 Primary care physicians (e.g., finding, establishing a medical home)
- 36 Legal services/needs
- 37 Employment assistance
- 38 Utility assistance
- 39 Obtaining public assistance and services (e.g., public aid, Illinois LINK, TANF, WIC, etc.)
- 40 Financial stability (e.g., cleaning up bad credit, budgeting, etc.)
- 41 Family Issues (e.g., custody, visitation, child support, adoption)
- 42 Medical education/services (e.g., visually impaired, Down's Syndrome)
- 43 Literacy support/encouragement (e.g., obtaining library cards, lap sits, story time, etc.)
- 44 Transportation (e.g., bus passes, medical vans, obtaining license and insurance)
- 45 U.S. citizenship assistance
- 46 Recreational activities
- 47 Transitions (e.g., starting childcare, moving, new sibling, weaning, and toilet learning, etc.)
- 48 Physical fitness
