Urges the State to redouble its efforts to work with the federal government, local governments, the private sector, civil
society, schools, students, farmers, ranchers, fishing communities, and sportmen to conserve the land, rivers, and lakes of Illinois for
present and future generations to enjoy, taking into account a wide range of flexible and enduring conservation solutions that will
improve access to nature for all people within Illinois, especially for communities that have historically lacked access to natural
spaces. Further urges the State to pursue this goal in a way that protects private property rights and traditional land uses and enables
landowners to pass down the working land of those landowners to the next generation.
