To Whom it May Concern:

I am writing to give testimony about the redistricting map being proposed today.

As a community activist living in Bridgeport, I have a strong interest in keeping the I 55 corridor together. Activists like myself worked tirelessly in the last two elections to build consensus in how best to serve the communities within our district. Preserving these relationships by keeping these communities together is of the utmost importance.

I would also like to testify on this matter by zoom.

Thank You,

Annie Jacobs
