Dear Redistricting Committee,

I am concerned and unhappy about the recent proposal to put Representatives Sean Casten and Marie Newman into the same congressional district. This would force them into a run-off in the primary. They are both great Representatives on environmental issues and many other social issues and it would hurt Illinois to lose either of them. I hope you will reconsider this and look for alternatives in mapping so as to not put them in the same district.

Thank you,

Judy Gustafson
