To the Redistricting Committee,

I'm disappointed in the new draft map that was released after so many constituents appeared before you to ask that our IL3 district keep the integrity of our borders and not be chopped apart. I'm attaching a map that a friend I made in a grassroots coalition in our town. We came together to make positive change and bring true representation to our district. We as constituents of IL3 made clear in our verbal testimony and appearance only support that we want our borders to remain. Thank you for your work on this I hope that you will keep the IL3 district together as a community of the Southwest side of Chicago and surrounding communities in the SW portion of Cook County.

Respectfully,
Karin I Janowski
