Subject: redistricting illinois — sanely
Date: Friday, April 9, 2021 11:33:25 PM

in the course of redistricting, please use existing county lines, city lines, even platt maps.
below the level of county and city, how about squares, for the most part? have a non-partisan
computer draw them. think: the opposite of gerrymandering.

i realize it is tempting to draw them in our favor when we have the chance, but: when they go
low, we go high.

thank you,
lori kingery
