---

My apologies. It is very difficult to distinguish between the colors and boundaries so I may have been in error. I think all of Belvidere should be in the same District as Rockford which might be the 17th District. The boundary could follow the Kishwaukee River East to the Hwy. 20.

Thank you,  
Wayne Borchardt

**Subject:** Proposed Redistricted Congressional Map

To Whom It May Concern:

I am the elected Precinct Committeeman for the Bonus 3 Precinct in Boone County as well as the Treasurer for the Boone County Democratic Central Committee. I reviewed the proposed Congressional map and feel very strongly there needs to be a minor change to the boundary for the proposed 13th and 14th Districts.

As proposed, about 93% of Belvidere lies within the 14th District and the remaining 7% lies within the 13th District. It simply makes no sense. Why not include all of Belvidere in the same District? Why chop off a little piece of a city and stick it with rural, Republican farmers?

Simply put, if you include Bonus 3 Precinct in the 14th District with the rest of Belvidere, there will be a better chance of a Democrat winning the 14th District. If the Bonus 3 Precinct is kept separate from the rest of Belvidere, there will never be a Democrat representing the 13th District because the Bonus 3 Precinct will vote Democrat but will always be outnumbered by the farmers.
